

Bradley Prizes

The Bradley Prizes program was established to encourage and recognize work that advances the Foundation's philanthropic mission. It is a celebration of the achievements of outstanding individuals and the values underlying those achievements. Those are values consistent with the Foundation's mission, which supports free market capitalism; limited, competent government; and a vigorous defense of American ideals and institutions. When the program was created, it was intended to recognize how a single person can help change the whole world for the better. This effort is even more critically important to the future of our country today than in the past.

The Board of Directors is asked to approve renewal of \$1,000,000 to support the Bradley Prizes.
